INFANT STATEMENT

RIBUS, Inc. has a strong quality commitment and responsibility to every customer. We guarantee our products consistently meet or exceed the rigorous standards set by our certifiers, implemented by our manufacturing facilities, and expected by our customers with regards to food safety, exceptional quality, and consistency. These goals are paramount to RIBUS' mission.

All conventional or organic RIBUS products are formulated for use by the General Population and should be treated as such. They are not designed, suitable, nor recommended for infant foods or supplements; neither are they intended to be used as ingredients to meet the specific needs of children under the age of 2 years. RIBUS does not claim its products adhere to the strict guidelines stipulated by the WHO Code, the FDA applicable requirements for Infant Consumption, nor any other standards typical for Infant-Specific Manufacturing. **RIBUS products do not undergo specific testing intended to meet the imperatives of CA AB 899 as our products are not intended for infants.**

We do not endorse the use of our products in further production intended for infant consumption unless that product is fully tested and meets the above-listed standards.

If you have any questions, please contact our main office at the number below.

Best regards,
